## Summary

I am a third year first class student studying Computer Science in Ahmadu Bello University of Zaria. I am a passionate learner with mind for real life problem solving. I take programming and other as computer science related fields as part of my curriculum and also a thing of passion. My aim in my career is to keep learning and building solutions to problems.

### Skills

- Standard HTML, CSS, JavaScript, and frameworks such as Materialize CSS, Ionic, and angular, for Front end web development and mobile app development. I use these technologies to employ coding practices based on commonly accepted standards to establish site layouts, user interfaces and functionalities.
- I am a professional graphics designer and i also employ graphic designs in areas of designing user interfaces where best applicable.

### Education

- Currently studying Computer Science in Ahmadu Bello University, Zaria.
- Completed programming and web development courses on Udemy.

### Certifications

- MTN 2020 Science and Technology Foundation.

### Work History

- Freelance Front End Web Developer and Designer.
- Freelance Graphics Designer since 2016.
